

Half way through July already - it's been all go with us!

We have bought on a new range of cleaning products - Care4NZ. As the name suggests these are made in New Zealand and are an environmentally friendly product - one of the few commercial grade cleaning products that have the Environmental Choice Certification NZ.

Environmental Choice is endorsed by the NZ government and recognises manufacturers that minimise the impact their products have on the environment. There are very strict guidelines that must be adhered to.
